

HEAVY DUTY MILK CREAM SEPARATOR MACHINE

Efficient Separation | Better Quality | Higher Profits

Separate Cream & Skim Milk with Ease

Automatic Operation

Efficient and continuous separation of cream and skim milk for hassle-free operation.

High Quality SS304 Bowl

Food-grade stainless steel bowl ensures purity, hygiene and long life.

High Separation Efficiency

Produces rich cream and low-fat milk with consistent results.

Robust & Durable Build

Heavy-duty construction for longer life and stable performance in daily use.

Skim Milk

Cream

Pure Cream
Natural Goodness

IDEAL FOR

Dairy Farms

High quality cream and milk production.

Milk Collection Centers

Efficient & hygienic milk processing.

Small & Medium Dairy Businesses

Value addition & better profitability.

KEY FEATURES

- ✓ Stainless Steel (SS304) Bowl
- ✓ Heavy Duty Motor (0.25 HP)
- ✓ Single Phase (220V – 240V)
- ✓ High RPM (7500 – 8000)
- ✓ Teflon / Nylon Scraper Blade
- ✓ ISI Marked Food Grade Design

TECHNICAL SPECIFICATIONS

Parameter	Details
Brand	-
Tank Capacity	25 Liters
Processing Capacity	165 – 300 LPH
Motor Power	0.25 HP (Single Phase)
Voltage	220 – 240 V (Single Phase)
Bowl Rotation Speed	7500 – 8000 RPM

Parameter	Details
Blade Material	Teflon / Nylon (Heat Resistant)
Pan Material	SS 304 (Food Grade)
Body / Base	Heavy Duty Cast Iron / Mild Steel (MS)
Design	With Plug Wire Storage & Specification Sticker
Application	Dairy, Milk Collection, Small & Medium Dairy Businesses
