

TOGGLE SWITCH

Heavy Duty | Durable | High Performance

KTPL Toggle Switch is designed for reliable operation in industrial, automotive and electronic applications. It offers excellent performance, long life and safe switching.

High
Current Capacity

Durable
Construction

Smooth
Operation

KEY FEATURES

Type

SPDT (Single Pole Double Throw) /
DPDT (Double Pole Double Throw)

Pins

Terminals are designed for easy
soldering on PCB (Printed Circuit Board).

Build

Strong construction with metal bushing,
hex nut and washer for secure mounting
and long life.

TECHNICAL SPECIFICATIONS

Type	SPDT / DPDT
Current Rating	1.5A
Voltage Rating	250VAC
Terminals	PCB Soldering Type
Mounting	Panel Mount
Operating Temperature	-25°C to +85°C
Contact Material	Silver Alloy
Body Material	Metal & Plastic
Switching Life	> 50,000 Cycles

IDEAL FOR

Industrial
Equipment

Automotive
Applications

Control Panels

Electronic
Devices
